

## 10x Table - Division Facts!

We can use our knowledge of multiplication to learn matching division facts.

You can organise the facts into sets of 4 like this:

$$2 \times 10 = 20$$

$$10 \times 2 = 20$$

$$20 \div 2 = 10$$

$$20 \div 10 = 2$$

Have you noticed that in all four facts the numbers are the same? We just need to swap them around a little bit!

Now you try!

Use your knowledge of the 10x table to complete all of the fact families.

	Multiplication facts	Division facts		Multiplication facts	Division facts
<b>A</b>	$11 \times 10 =$	$110 \div 10 =$	<b>F</b>	$3 \times 10 =$	$30 \div$

### Challenge!

Can you write the full multiplication and division fact families for these:

A.  $20 \times 10 = 200$

B.  $100 \times 10 = 1000$

C.  $40 \times 10 =$

D.  $25 \times 10 =$
