

5x Table - Division Facts!

We can use our knowledge of multiplication to learn matching division facts.

You can organise the facts into sets of 4 like this:

$$2 \times 5 = 10$$

$$5 \times 2 = 10$$

$$10 \div 5 = 2$$

$$10 \div 2 = 5$$

Have you noticed that in all four facts the numbers are the same? We just need to swap them around a little bit!

Now you try!

Use your knowledge of the 5x table to complete all of the fact families.
